- A similar motor vehicle not belonging to the policyholder that replaces the vehicle referred to under a. during the period in which it is temporarily unavailable for repair and/or maintenance;

1.3 Claim

Any incident or series of related incidents that could give rise to an obligation for the insurer to pay compensation.

2 Premiums

2.1 No-claim bonus

- If the policy schedule indicates that the no-claim bonus scheme applies, the following scale will apply to the premium owed depending on the number of claims in the previous insurance year:

Premium according to tier 1 is payable following three or more claims in a single insurance year.

- A claim does not affect the tier if:
 - the insurer is not liable to pay compensation;
 - the insurer has recovered the compensation paid in full;
 - the insured has repaid the insurer the full amount of the compensation paid within 1 year of being informed of the amount thereof.

The consequences of claim settlement agreements between insurers are not taken into consideration.

- A claim on the liability insurance or on the accidental damage insurance will influence the premium for both types of insurance.

The premium is calculated in accordance with the details stated on the policy schedule. Changes to these details may result in a change in the premium.

2.3 Payment of premiums

The policyholder must pay the premium, the costs and/or the insurance tax in advance, and no later than the 30th day after the premium becomes due.

2.4 Restitution of premium

The policyholder will not be entitled to reimbursement in the circumstances referred to in section 5.3 unless further agreement is made to continue the insurance policy for

another motor vehicle within 3 years after the date of termination.

3 Adjustment of premium and/or changes to the conditions

the insurer is entitled to adjust the premiums and/or terms and conditions of certain groups of insurance policies en bloc. If this policy belongs to that group, then the insurer has the right to adjust the premiums and/or conditions of this policy in line with those changes, to come into effect at the next premium due date.

The policyholder will be informed of the changes before the premium due date and will be deemed to have agreed to the changes unless the policyholder sends written notification to the contrary within 30 days of the premium due date at the latest. In which case the insurance policy will terminate on the relevant due date or – if the changes are refused later – at the time of refusal.

8 Suspensive condition

We may be forbidden from signing an insurance agreement with you based on national or international sanctions and/or rules.

The agreement cannot be finalised if you or another party concerned are mentioned on a national or international sanction list. We check this later, and that is why a 'suspensive condition' applies.

We conduct this check as soon as possible. If you or another party concerned do not appear on a sanctions list, then the agreement is valid from the commencement date stated on the policy schedule.

If a person does appear on a sanction list, we will inform the applicant about this in writing. We will do this within 10 days of sending you the policy schedule.

The suspensive condition is:

The agreement comes into effect only if the result of the check shows that, pursuant to the sanctions law or regulations it is not forbidden to provide financial services for:

- policyholder;
- insured parties, co-insured or other persons and/or legal entities who could benefit from the existence of the agreement;
- representatives and authorised representatives of the policyholder's company;
- ultimate financial stakeholders in the policyholder's company.
